International investment law is going to change. But is the ongoing reform process capable of solving systemic problems? Does the reform agenda reflect the criticism voiced by civil society and developing countries? If delegates and experts only tinker with the system at the margins without fundamentally altering it, a reformed investment protection regime might carry forward the undesirable legacy of the past.

MODERATION

Tomasz Milej

Kenyatta University
School of Law

PANEL DISCUSSION AND Q&A SESSION

Florence Shako

Riara Law School
Nairobi

Julian Scheu
